ERA-NC Alliance Affiliation Membership Form Collaboration Standards

Standards for collaborative ERA advocacy through ERA-NC and the national ERA Coalition are:

(1) non-partisanship as an alliance and

(2) acknowledgement there are advocates that advance either one or both of the traditional and three-state strategies as legally and politically desirable, and these strategic approaches are not at present mutually exclusive.

The goal of the ERA to guarantee equality without regard to sex is not supported solely by members of only one political party, and the ERA will not advance politically without a super-majority of legislators from both major parties.

Credible and politically astute advocacy for either of the ERA ratification strategies can benefit both strategies, and actions taken in collaboration with ERA-NC should not intend or produce a detrimental effect on either strategy. Organizations and individuals may of course choose to work solely on one strategy or the other and explain their reasons for doing so in a way that advances their chosen strategy, but an organization's or individual's identification as a member of ERA-NC requires adherence to these two standards.

** Contributions to the ERA-NC Alliance are not tax-deductible; they support our effective, citizen-based advocacy and lobbying efforts.*
